- When designing a program we always start with the end in mind and work collaboratively with our clients to create meaningful learning experiences which participants can apply directly to their workplace situation.
- Many Primeast consultants are certified in the Kirkpatrick New World model which we apply when designing the program and the evaluation system. Applying Levels 3 and 4 ensures that we achieve the learner outcomes which will impact on behavior and the business outcomes, delivering measurable return on investment through performance improvement and tangible results.

SUPPORTING PEOPLE STRATEGIES

PrimeFocus™

© primeast 2008 www.primeast.com

When working with clients we design and facilitate events and workshops where leaders identify their ‘**burning platform**’ and then we guide them through the process of **developing the roadmap** towards a compelling future. Typically this starts with **PURPOSE**, works through the key dimensions and informs the human talent development plan.

We apply a proven framework (PrimeFocus™) which supports leaders to then engage and align their teams to deliver the agreed vision. See the [Leader Alignment program](#).
